Portfolio: AS-Portfolio

OBJECTIVE

A passionate and detail-oriented web developer with a background in computer science, seeking a full-time role to build engaging, scalable digital experiences. Eager to contribute strong frontend and full stack skills in a creative, collaborative environment while continuously growing through new challenges and technologies.

TECHNICAL SKILLS

- **Languages & Web Technologies**: JavaScript (ES6+), TypeScript, HTML, CSS, Python, SQL, C++
- **Frameworks & Libraries**: React.js, Next.js, Tailwind CSS, Framer Motion, Node.js, PHP
- **Tools & Platforms**: Git & GitHub, Vercel, Visual Studio Code, PyCharm, Replit, Postman
- **Other Software**: MS Office Suite (Word, Excel, PowerPoint, Outlook), ProPresenter

EDUCATION

BACHELOR OF SCIENCE, COMPUTER SCIENCE | MINOR IN MATHEMATICS

University of Houston, College of Natural Sciences and Mathematics | Houston, Texas

AUGUST 2019 – DECEMBER 2023

WORK EXPERIENCE

Software Developer - AI Trainer (Contract)

Outlier AI | Remote

October 2024 - Present

- Designed and implemented diverse coding challenges and solutions to enhance AI chatbot capabilities, ensuring real-world applicability.
- Evaluated AI-generated code for correctness, performance, and adherence to programming best practices across multiple languages, including Python, C++, Java, JavaScript, PHP, and HTML.
- Provided high-quality code snippets and detailed explanations to improve the AI's ability to solve complex coding problems.
- Collaborated with the AI development team to analyze performance metrics and refine chatbot responses based on evaluation results.

PROJECTS

AGA Church Website Redesign (Full stack – ReactJS, Next.js, TypeScript, Tailwind CSS, Framer Motion, Node mailer, Square)

- Led the redesign of the Amazing Grace Assembly website to create a modern, responsive, and interactive user experience.
- Developed dynamic frontend components with React, Next.js App Router, and Framer Motion for smooth animations and page transitions.
- Built backend functionality using API routes and Node mailer for contact forms and prayer requests, and integrated Square for secure online donations and apparel purchases.
- Focused on accessibility, performance, and mobile responsiveness to serve both the congregation and new visitors effectively.

Multithreaded Run-Length Encoding (RLE) Program (C++)

- Developed a multithreaded program to optimize string encoding.
- Implemented mutex semaphores for thread synchronization and integrated dynamic memory allocation.

Helios: Change Analysis of High-Intensity Solar Flare Events (Python)

- Collaborated with a team of students to develop Helios, a system for analyzing high intensity solar flare events.
- Assisted in data mapping, and hotspot discovery features to conduct change analysis between distinct time periods.

CERTIFICATIONS

- Advanced C++
- Basics of Data Structures and Algorithms
- Programming Fundamentals

VOLUNTEERING/ACTIVITIES

UH Harvest Intervarsity (August 2019 – December 2023)

- **Large Group Volunteer:** Assisted in coordinating community group gatherings, and in leading group gatherings into worship with worship team.

Amazing Grace Assembly of God Audio and Visuals Director (June 2017 – Present)

- Manages and trains personnel to run presentation software and audio console and offer assistance and consultation when needed.
- **Musician:** Leads congregation into worship utilizing bass guitar.

HOBBIES/INTERESTS

- Weightlifting (Powerlifting/Bodybuilding)
- Volleyball
- Playing / listening to music (Bass guitar player)
- Volunteering for church and church-related organizations
